Suspension of action is necessary based upon a showing of good and sufficient cause for suspension of action.

Specifically, the inventor has not communicated with the undersigned attorney. The undersigned attorney has attempted to contact the inventor, and the undersigned attorney has not successfully been able to communicate with the inventor. The inventor's cooperation is necessary and essential for claim amendments that will be made for this application and for further successful prosecution of this patent application. The inventor has not cooperated with the undersigned attorney on matters concerning this patent application. The undersigned attorney requests for suspension of action of this patent application, in order to obtain additional time to locate the inventor and to obtain the cooperation of the inventor for claim amendments for this patent application for further successful prosecution of this patent application.

Additionally, the inventor has not indicated an intention to continue the prosecution of this patent application. The undersigned attorney requests for suspension of action of this patent application, in order to obtain additional time to locate and communicate with the inventor, so that the undersigned attorney can determine if the inventor wishes to continue prosecution of this patent application or if the inventor wishes to abandon this patent application.

Additionally, the inventor owes the undersigned attorney the amount of \$31,529.19 in unpaid legal fees. This unpaid amount of \$31,529.19 by the inventor has caused unfair hardship and undue hardship to the undersigned attorney. The inventor has paid the undersigned attorney for all unpaid legal fees. The undersigned attorney does not have funds to loan to the inventor for payment of fees

that will be due in the U.S. Patent & Trademark Office for this patent application. Additionally, the undersigned attorney is not able to prosecute this application in the USPTO without payment of legal fees, and will incur additional unfair hardship and undue hardship if prosecution of this application in the USPTO is continued by the undersigned attorney without payment of legal fees from the inventor. The undersigned attorney requests for suspension of action of this patent application, in order to obtain payment of unpaid legal fees from the inventor, and in order to pay fees that will be due in the USPTO for this application.

Approval of this petition is respectfully requested.
